If you make it far enough, you will even learn to dash through enemies, jump off of walls, and fly swinging through the air using your trusted grappling hook. Really solid foundation for a good game. There is a huge room for improvements for sure but I like what I experienced so far. Definitely worth the price.

The tutorial stage gave me Nier Automata vibe <3
. Here's a shocker; I only bought this game on impulse... It looked like an awesome idea and that's about all I went on when I bought it.

This game really surprised me though. I played it way too long for its actual gameplay. I guess it's because of the thrill of exploring an uncharted world, the need to get more spells to be even more powerful and see the absolute chaos that your power can bring to the world. To be able to shape it in any way that you want. I mean let's be honest here... Who wouldn't want to be a powerful mage soaring through the sky, killing evil black things that are hostile and gaining more powers as you explore new worlds?

I for one am pleased, for once, that I followed my 'ooooo shiny' impulse. Thanks for all the work that you guys do! I'm glad to see that the game is updated fairly regularly.. I love this soundtrack so much.... It's like Turbo Pug, but then in 3D!! Why wouldn't you buy this?. Ok..... Yea no. Not going to waste alot of time here. It's Not good. See other reviews for why. Get it if it's like a dollar. Otherwise don't.. Truly a fantastic game. The movement feels great, the levels are wide and varied and the music is wonderful (my favorites are 'Rubber Glop' and 'LED Lullaby'). Just straight-up fun to play. I wish more people were talking about this game. If you're a fan of precision platformers, this is a must-buy! :)

---- FINAL SCORE ----
9.75 out of 10

. Yes I didn't put much time in but I really didn't want to! I remember old football games being more fun than this. The games also really didn't like me alt-tabbing out.......... Wonderful puzzle clicker!
This game is a great little puzzler, a few "collect piece and put in things" bits, a few lock puzzles, a few pattern and number puzzles and a couple of really interesting maze locks.
Really short, but really fun!. Overdosed - A Trip To Hell
Brings a lot of fun for a short time!

Buy it in Stem-Sale!!!

dude this is so fun ive never done animation before and this makes it easy and fun. Fun tower defense. Requires replaying some of the scenarios until the mobs' abilities are learned.

Two minor cons are apparent: Quicktime installation is required and the poor English translation of a somewhat mediocre over-arching storyline detracts from the game slightly, however the basic concept of fighting inside one's nightmares is otherwise well executed and lends itself to interesting environments.

- Skinny from the Fat B*stard [(curator link). It's expensive for what it is.](#)
[I'm sure the game will improve, but for now it's not worth it.](#)
[Very limited.. A great tactics game that reminds me of Shining Force and Advance War. Tactics are solid with unit diversity and specialized attacks. If you're a fan of these types of games, you won't lose by buying this game. Also, the price is right!. Bleed me dry. Its a very short game (not many levels) but its still quite fun...](#)
